DOPPLERS & ACCESSORIES

D900 VASCULAR DOPPLER

*Non-directional doppler

The Dopplex® D900 is a low cost audio only, non-directional doppler, principally used for ABPI measurements by community nurses and doctors in their role of leg ulcer management.

- Clear audio sounds of blood flow or fetal heart
- Enhanced battery management
- Compatible with the complete range of vascular probes. When used with EZ8 probe it is excellent for the infrequent user in locating brachial and pedal arteries
- Large carry bag and headphones included

*Probe sold separately

MD2 VASCULAR DOPPLER

*Bi-directional doppler

The Dopplex® MD2 is one of the most advanced pocket dopplers on the market. It provides the ability for high level vascular assessment, and is ideal for the detection of peripheral arterial disease. When used with the high sensitivity vascular probes it provides quality bi-directional blood flow information. It can be linked to the Dopplex® Reporter software package for high quality waveform reports or the Dopplex® Printa for single waveform recordings.

- Connects with all high sensitivity probes (2, 3, 4, 5, 8, 10 MHz)
- Provides bi-directional blood flow information and documentation
- Integral battery management
- Enhanced audio output
- Large carry bag will hold sphyg and cuffs

*Probe sold separately

SD2 VASCULAR DOPPLER

*Bi-directional doppler

The Dopplex® SD2 provides bi-directional vascular information to the vascular professional including the display of flow direction. It is ideal for clinical specialists wishing to conduct advanced doppler studies.

- Compatible with all high sensitivity vascular probes (audio only with OP2 and OP3)
- Ideal for ABPI assessment
- Provides bi-directional blood flow information
- Enhanced stereo audio output
- Large carry bag
- Stereo headphones included

*Probe sold separately

DFK

Diabetic Foot Assessment Kit

The Diabetic Foot Assessment Kit provides the professional vascular or diabetes specialist with a system to help in the assessment of neuropathy, ankle brachial pressure index (ABPI) and toe brachial pressure index (TBPI).

- Bi-directional doppler (MD2) and probe (VP8HS)
- Neuropen (includes 10g monofilament)
- Trigger operated sphyg with a range of latex free cuffs (arm/ankle, large and small toe)
- Educational DVD
- Hard carry case
- Set of guides (ABPI/TBPI)
- Headphones
- Box of Neuropen tips

HUNTLEIGH DOPPLER ACCESSORIES

High sensitivity doppler probes

Based on over 20 years' experience in this field, the latest generation of the world renowned Dopplex® hand-held doppler range offers even greater performance, quality and value for money.

The range now has significantly enhanced features including:

- Improved probe design with 50% greater efficiency to give increased sensitivity for easier detection of smaller vessels and calcified arteries
- An EZ8 wide beam probe for easy vessel location
- A reusable intraoperative probe for cost effective reassurance during surgery
- Improved, audio performance, battery power management, carry bag design which includes space for a sphyg and cuff

EZ8 PROBE: The new 8MHz high sensitivity EZ8 doppler probe incorporates Wide Beam technology to allow easy location of the vessel. It is also easier to maintain vessel contact during inflation and deflation.

VP4HS: The 4MHz high sensitivity doppler probe for detection of deep lying vessels.

VP5HS: The 5MHz high sensitivity doppler probe for edematous limbs and deep lying vessels. The ideal probe as an adjunct to the EZ8 for ABI measurements.

VP8HS: The 8MHz high sensitivity doppler probe for easier detection of peripheral vessels and calcified arteries.

VP10HS: The 10MHz high sensitivity doppler probe for detecting smaller vessels in superficial applications.

IPP3: The 8MHz Resterilizable Intraoperative probe. Ideal for most surgical applications.

D920 FETAL DOPPLER

Audio only doppler

This audio doppler has been designed with ease of use in mind. Its high sensitivity transducer coupled with clear fetal heart sounds, enable the clinician to quickly locate the fetal heart.

- High sensitivity ultrasound for improved ease of use
- 2MHz waterproof transducer suitable for use in a water birthing environment
- Battery low indicator
- Easy clean transducer for improved infection control
- Belt clip and neck-cord (option) to aid handling

D920 FETAL DOPPLER

CODE	DESCRIPTION
10046	Huntleigh Fetal Doppler D920

FD1 FETAL DOPPLER

Waterproof rate display doppler

The FD1 is a highly versatile obstetric doppler, with the added advantage of displaying the fetal heart rate. The high performance transducer enables reliable detection from early gestation right through to delivery, even on obese patients.

- Advanced real time auto-correlation fetal heart rate processing
- Active noise reduction for crystal clear fetal heart sounds
- 2MHz waterproof transducer suitable for use in a water birthing environment
- Advanced power management with auto switch-off to conserve battery life
- Long robust coiled cable enables optimum transducer position in all circumstances

POLE STAND ACCESSORY

A convenient way of holding your hand-held doppler and preventing it from disappearing into other departments.

- Options for both hand-held and desktop dopplers
- Provides convenient and height adjustable secure mount on mobile 5 wheel base
- Includes basket for storing gel, probes, cuffs, etc
- Option to mount Dopplex® Printa II on pole below doppler

HUNTLEIGH ABILITY

DOPPLEX ABILITY

AUTOMATIC ANKLE BRACHIAL INDEX SYSTEM

Revolutionising Ankle Brachial Pressure Index Measurements

Ankle Brachial Index System has never been simpler or quicker. It's portability enables measurements to be made more efficiently in the primary care clinic, hospital or patient's home. This can lead to the prioritisation of clinical services by improving clinical pathways.

ABIs are calculated easily and accurately in three minutes without the need to rest the patient. Results are automatically calculated, interpreted and displayed with Pulse Volume waveforms on the LCD panel. The test results can be printed on either thermal paper or adhesive backed label paper via the integral printer.

PROUDLY NZ OWNED

USL has been built by creating seamless relationships. Since 1984 we've built enduring partnerships with customers, suppliers and our community. We set out to create the very best environment for our team so that they might deliver their unique skills to our markets.

WHAT YOU CAN EXPECT FROM US:

- We offer our customers dependability and experience they can rely on and trust.
- We deliver under IFOTIS: In-Full, On-Time, In-Specification.
- We operate a management reporting system that provides information on the frequency, recency, amount and type of purchases for all customers, and thereby enhancing their business purchasing efficiency.
- Normal guarantees apply and are rigorously honoured, and we guarantee to supply our key clients with critical stock items under IFOTIS.
- Our product range is comprehensive. It meets our Healthcare customers' needs, so they can confidently have a one supplier relationship for all medical products.
- Private Market
- General Practitioners
- Nurse Practitioners
- Private Hospitals (Medical, Surgical)
- Rest Homes
- Accident and Emergency Clinics
- Emergency Services
- Occupational Health Services
- Community Trusts
- Physiotherapists and Sports Medicine Clinics
- Sports Clubs and Organising Bodies
- Veterinary Services
- First Aid Suppliers
- Medical Laboratories
- Public Hospitals
- Specialist Clinics
- Community and Public Health Services
- Pharmacy Retail
- Industrial and Safety
- Dermatologists and Skin Clinics

OUR COMPANY AT A GLANCE:

- USL is a limited liability company, proudly New Zealand owned
- Our annual sales exceed \$NZ 60 Million
- Our head office and main distribution centre are based in Auckland
- The South Island is serviced from our Christchurch distribution centre
- We service 3,750 customers at all locations throughout New Zealand including all 20 of the National District Health Board
