MEDICAL & SURGICAL CARTS/TROLLEYS

HERMAN MILLER MEDICAL AND SURGICAL PROCEDURE CARTS

Herman Miller provides a wide range of carts for every clinical need. These include:

- Anaesthetic carts
- Resuscitation carts
- Airway carts
- Procedure carts
- Medication trolleys
- Linen carts
- Catheter carts
- Laptop trolleys
- Endoscopy carts

Herman Miller carts are designed to fit in with, or improve the processes and tasks that we complete every day. When choosing a cart solution we take into consideration work processes, function, storage and transport flow. Solutions are focused on:

Standardisation

Ensuring in an area where multiple carts are used, that the carts are all configured identically so staff have complete familiarity in emergency and day to day situations.

Flexibility

Over time, processes and products change. These changes can affect the suitability of a custom made product. All Herman Miller carts allow for their configuration to be changed, meeting the needs of the day.

Functionality and modularity

Drawers and accessories are all interchangeable. Create the function you need with a combination of specific interior components. Recreate new styles or functionality by exchanging components.

Durability

All of the carts are made of highly durable impact-resistant plastic. Colour is integrated into the plastic so there is no colour chipping even if surfaces are scratched. The carts are put through rigorous tests to ensure they meet the needs of a fast paced hospital environment. This includes tipping them, pushing them into walls at high speed, loading them to capacity and ensuring drawers won't fall out.

PROUDLY NZ OWNED

USL has been built by creating seamless relationships. Since 1984 we've built enduring partnerships with customers, suppliers and our community. We set out to create the very best environment for our team so that they might deliver their unique skills to our markets.

WHAT YOU CAN EXPECT FROM US:

- We offer our customers dependability and experience they can rely on and trust.
- We deliver under IFOTIS: In-Full, On-Time, In-Specification.
- We operate a management reporting system that provides information on the frequency, recency, amount and type of purchases for all customers, and thereby enhancing their business purchasing efficiency.
- Normal guarantees apply and are rigorously honoured, and we guarantee to supply our key clients with critical stock items under IFOTIS.
- Our product range is comprehensive. It meets our Healthcare customers' needs, so they can confidently have a one supplier relationship for all medical products.
